The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, brick-dust or sediment in the urine, head ache, back ache, lame back, dizziness, sleeplessness, nervousness, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and better health in that organ is obtained quickest by a proper treatment of the kidneys. **Swamp-Root** corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and immediate effect of Swamp-Root, the great kidney remedy is soon realized. It stands the highest because of its remarkable health restoring properties. A trial will convince anyone.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, and don't let a dealer sell you something in place of Swamp-Root—if you do you will be disappointed.

FAIRFIELD'S EGG PRODUCER

County Commissioners not Responsible.

The suit of James F. McKelvey to recover $1,500 against the County Commissioners of Cecil county for damages on account of the raise of the grade in front of his property on the public road leading from Rising Sun to Cathers Corner was decided in favor of the county commissioners. The plaintiff claimed that the raise in the grade destroyed the enjoyment of his house, as it had been before the macadam road was built. The county maintained the theory that it was not liable for any change in the grade of the road unless it had been negligent in the plan and construction. The court ruled that the county was not liable. The control of the construction and permanent improvement of the public roads in Cecil county is now vested in a board of seven members, four of whom are appointed by the governor. According to the ruling of the court of Elkton, the permanent improvement of the public roads, if the work is done by persons whom the county commissioners have no control, is a matter for which they are not liable if damage is done. The ruling of the court is an important one not only to Cecil county but also to the other counties of the state in which state roads are being constructed.

THE SHOW PEOPLE THANKED.

Chestertown, Md., Sept. 28, 1910.

MR. FRANK A. ROBBINS, Millington, Md

Dear Sir—The Commissioners of Chestertown passed the following resolution and requested me to send you a copy of same which I do with much pleasure. Very truly yours,

WASHINGTON WINS

Rock Hill College Is Defeated When A Safety Is Made.

Despite the great handicap by three of its star players not reaching Chestertown in time to participate in the opening game with the Rock Hill College boys here Saturday afternoon, the Washington College football team showed great form and defeated its opponents, 2 to 0, by making a safety in the second quarter, when Captain Porter made a sensational punt down the field, and Fuccy, a Rock Hill player was carried over the line as he was attempting to run the ball out.

The prediction made by the football experts that the new rules governing the gridiron game this season would develop sensations did not hold good in the way of rolling up a large score. It is true that the local boys got near their opponents' goal line several times, but was unable to carry the pigskin over for a touchdown. Individually, the players of Washington College did excellent work and executed wonderful tackles upon Rock Hill's men, but together as a team their work was not so well. The visitors could not gain a yard by hitting the locals' line and one time when they got near Washington's goal it was the result of a long kick by their full-back which the locals boys failed to get.

The visitors are due credit in having held the locals down to such a small score, in view the fact that Washington has an enviable reputation on the gridiron. The only prominent feature of Rock Hill plays was good punting by its fullback, Taliferro.

The local college boys played well. Captain Porter made long punts hard line plunges and startling runs. Wright also starred by making some of the finest interferences ever witnessed here. Branham, Garey and Bolden broke visitors' interference prettily. Garrett, left. end, caught some fine forward passes.

Coach M. J. Thompson was not present to give any particular comments, having left to referee the Syracuse-Yale game today. The line-up :

Wash. College.	*Position*	*Rock Hill*
Garrett	Left end	Magee
Krantz	Left tackle	Long
Jones	Left guard	Gately
Meredith	Centre	Flaherty
Bolden	Right guard	Dalton
Porter (capt)	Right tackle	Connelly
Crew	Right end	Francis
Thiboteau	Quarterback	Fuccy (capt)
Branham	Left halfback	Mueller
Garey	Right halfback	Hopkins
Wright	Fullback	Taliferro

Referee—Vickers, of Chestertown. Umpire—Beck, of Chestertown. Field Judge—Jones, of Galena. Head lineman—Diciminero, Washington College. Time of quarters—Eight minutes.

Foot Ball Schedule.—The football season at Washington College began Saturday with a game here with the strong Rock Hill College team. Manager Harland W. Huston has arranged the following schedule for the season :

October 1—Rock Hill at Chestertown.
October 5—Georgetown at Washington.
October 15—George Washington at Washington.
October 22—Pending.
October 26—Catholic University at Chestertown.
October 29—Maryland Agricultural College at College Park.
Nov. 5—Fredericksburg College at Chestertown.
Nov. 12—Rutgers at Chestertown.
Nov. 19—Open.
Nov. 24—Ursinus at Royersford, Pa.

Mr. F. Stanley Porter is captain of the team and Prof. M. J. Thompson coach.

Election of Officers.—Since 1847 the Mt. Vernon Literary Society has been in existence. It is not only the oldest society at Washington College but in the State, and even ranks with the oldest in the United States. The best talented men have been chosen to fill the offices and to set the standard of excellence for those who honor and respect them.

Mr. B. A. Johnson was elected president at their regular meeting last Saturday evening. Mr. Johnson was vice-president during the first term of his Junior year and had occasion to fill the chair on several instances, each time showing his ability to fill this office.

The following are the officers for the ensuing term : Benjamin A. Johnson, president; A. Claude Griffin, vice-president; Leon Jones, recording secretary; James L. Madden, corresponding secretary; William Frazier Russell, treasurer; J. Roy Baden, historian; W. Galen Vansant, critic; Alcaid Wright, sergeant-at-arms.

GOOD CATCH AT CRUMPTON

2,200 Pounds of Carp Captured In A Single Haul.

Notwithstanding the fact that fish have been scarce in the local waters for some time past, a report, which is vouched for by six persons, who were eye witnesses, is being told at Crumpton. Last Saturday while Prof. R. C. Godwin and Mr. Lambert Ware, both of that place, were out fishing they noticed a great commotion in the cattails and shallow water, near an island a short distance from where they were then fishing with hook and line in the upper Chester river.

They decided to investigate, and for curiosity placed a small seine where the water had been noticed to be stirred. They then started for home and left the net in a position for the tide to lower. When the net was taken in it was noticed that it was completely alive with fish. Dr. A. E. Landers, Mr. John E. Hendrix and Mr. Harry Hartley, who had also been fishing with hook and line up the river a short distance, and noticing that their comrades were landing the seine, decided to investigate. They then pulled up stakes and rowed to where the fishermen were landing the seine. After the net had been landed, it was found that fish enough had been caught to load three bateaus.

The fish were weighed and the aggregate weight amounted to 2,200 pounds of carp, ranging in weight from 8 to 30 pounds. This is the largest number of fish caught at one time in the waters of Chester River for some years past.

Democrats, don't fail to Register on one of the two Registration Days—Tuesday, October 4th, and Tuesday, October 11th. If you are not Registered you cannot vote for the re-election of Congressman J. Harry Covington.
