ANOTHER WOMAN CURED

By Lydia E. Pinkham's Vegetable Compound

Black Duck, Minn.—"About a year ago I wrote you that I was sick and could not do any of my housework. My sickness was called Retroflexion. When I would sit down I felt as if I could not get up. I took Lydia E. Pinkham's Vegetable Compound and did just as you told me and now I am perfectly cured, and have a big baby boy."—MRS. ANNA ANDERSON, Box 19, Black Duck, Minn.

Consider This Advice.

No woman should submit to a surgical operation, which may mean death, until she has given Lydia E. Pinkham's Vegetable Compound, made exclusively from roots and herbs, a fair trial.

This famous medicine for women has for thirty years proved to be the most valuable tonic and invigorator of the female organism. Women residing in almost every city and town in the United States bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound. It cures female ills, and creates radiant, buoyant female health. If you are ill, for your own sake as well as those you love, give it a trial.

Mrs. Pinkham, at Lynn, Mass., invites all sick women to write her for advice. Her advice is free, and always helpful.

HOG CHOLERA.

A Serum Demonstrated by Bureau of Animal Industry—The State Should Provide Fund for Distribution.

The dreaded hog cholera is playing havoc with the hogs in upper Kent, and lately it has made its appearance near Tolchester. Mrs. James L. Beck buried 17 fine head of hogs last week.

The Department of Agriculture is arranging to bring to the attention of the various Legislatures in those States where hogs are raised the necessity of providing funds for a hog cholera serum, the success of which has been thoroughly demonstrated by the Bureau of Animal Industry.

It is the belief of the Department officials that a serum has at last been found which, when properly applied, will save millions of dollars annually to the farmers of the country. No money is provided by the Government for the distribution of this serum, and unless the States through their departments of agriculture arrange to manufacture this antitoxin, it is feared that its benefits will be lost.

A successful demonstration of the value of the new Government serum for preventing cholera has just been concluded at Omaha, Neb. The efficiency of this serum had been proved many times before, but in order that its value might be brought more strikingly to the attention of the Westerners, a practical demonstration was arranged at the Union Stock Yards, Omaha.

In its report on this demonstration the Department says:

The experiment was witnessed by representatives of the Nebraska Agricultural Station and by officials of the Nebraska Swine Breeders' Association, and it convinced them that the serum was entirely effective. The Department of Agriculture does not distribute this serum to farmers, but is endeavoring to bring the value of this method to the attention of the stock-raising interests in order that they may arrange to secure State funds for its manufacture and distribution. The Department authorities believe that this new serum treatment, if properly applied, will result in saving millions of dollars.

A JAPANESE JUBILEE.

What's the use of getting seasick on boats and headaches on trains, of tipping porters and losing baggage and eating all kinds of things in all kinds of hotels and tramping all day and tossing all night and well, what's the use of it all when you can travel in perfect comfort with Lyman H. Howe at Stam's Hall, Chestertown on Wednesday, Oct. 26. For it is very true that Mr. Howe has simplified traveling. His new program affords all the pleasure of actual travel without any drawbacks. "It includes so many features of vital interest to everyone that one is forced to marvel at its completeness and versatility" is the way the Denver News describes it. Those people who have never been to Japan or who doubt the strange, tho bewitching beauty of Japanese girls, will be surprised at the quiet dignity, yet charming personalities of the living flowers in the island empire. During a recent Japanese jubilee, Mr. Howe succeeded in photographing the aristocracy of all Japan at a time when they did not know they were being photographed. So here are close facial portraits of the most beautiful women in Japan. Then, too, there will be other such portraits of the kings and sons of the kings attending the King's funeral in London, and of our special ambassador, Col. Roosevelt. Scenes of a spectacular kind are furnished by the eruption of Mt. Etna, and artillery manoeuvres in Italy. A new sensation is provided by the "Ride up the Eiffel Tower," while a railroad trip thru the Alps in winter and a steamer ride thru the fiords of Norway reveal new wonders. Life on a training ship and an almost human track laying machine in operation building the new Grand Trunk Pacific railroad are still other features, not to mention many of the humorous kind.

PERFECTION SMOKELESS OIL HEATER

Absolutely smokeless and odorless

It gives just as much heat as you desire. It is safe, odorless and smokeless.

It has an **automatic-locking flame spreader,** which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back, so the wick can be quickly cleaned. Burner body or gallery cannot become wedged, because of a new device in construction, and can always be easily unscrewed for rewicking.

An indicator shows the amount of oil in the font. Filler-cap does not need to be screwed down, but is put in like a cork in a bottle, and is attached to the font by a chain. Finished in japan or nickel, strong and durable made, built for service and yet light and ornamental. It has a cool handle damper top.
