HOW I Was Cured of Malaria

"I was for over five years troubled with Malarial Fever. It would almost always come on in the Spring and would bother me for the remainder of the summer. I tried different medicines, but they did not seem to help me. I also had the doctor off and on for some time but the next year I would be troubled just the same and I would have to be at home for several weeks. I would be in bed one day and have chills and a heavy fever, and the next day I would be up about the house, and this is the way I would be for several weeks each summer.

"I finally decided to try some good blood medicine, so I began taking Pinkham's Blood Purifier, and found it did me lots of good. I began taking it early in the spring and continued taking it all through the summer. I found, after taking a few bottles, that my body was covered with pimples, and it seemed to drive all the humor out of my blood. After that I felt much better, and now I am just as healthy as ever I was, and I am never troubled with Malarial Fever."—GEORGE P. STRONG, 35 Groveland Street, Lynn, Mass. Thousands of people believe in

Pinkham's Blood Purifier

Malaria is caused by a parasite which gets into the blood, and unless the blood is in a healthy condition and has normal resisting properties, they attack and destroy the red corpuscles, and so seriously impair the general health.

Chills and fever are the most marked symptoms of Malaria, which can be cured by purifying and enriching the blood. Mr. Strong found that Pinkham's Blood Purifier cured him after all other means had failed, and what it did for Mr. Strong it will do for other sufferers.

ALL DRUGGISTS SELL IT

SEED CORN TEST.

The public will be pleased to hear that Prof. Geo. H. C. Williams, Supervisor of Colored schools Wicomico county and President of State Rural Teachers Association, will deliver an address on Education and demonstrate the famous Holden Seed Corn Test.

He is the first Negro to be appointed in the U. S. Department of Agriculture and was formerly an instructor in biology and school gardening, Washington, D. C. Prof. Williams has recently returned from the Graduate School, Iowa Agricultural College and is making a thorough investigation of the Rural Schools of Maryland.

We are indeed glad to announce his comiug as it means encouragement to us and genuine interest in the work we are so anxiously laboring to accomplish We earnestly invite both white and colored to be present on the day of his address March 30, at 2.30 p. m., at Janes M. E. Church.

In addition to this, March 31—from 10 a. m. to 2 p. m. the second annual exhibition of handwork, cooking and etc., will be shown, done by the children of which Miss Hattie E. Cardozo is teacher.

Here I wish to express our appreciation and return thanks to those of our white friends who have not only contributed to us in our work but have expressed themselves as willing to further its interest with their hearty support and good will.

CASES REMOVED TO KENT.

In the NEWS last week was mentioned the Crawford—Jones case being tried in Cecil. The suit was an action of trespass brought by Dr. E. N. Crawford against W. G. Jones, to recover the mesne profits from the Seaman farm, in the First district, which Mr. Jones occupied as a sub-tenant, under his father-in-law, Henry Boulden, who had held the farm under a supposed ten years' lease which was voided some years before it expired by reason of its not having been recorded. Mr. Jones occupied the farm from January 1, 1909, till September of that year, when at the suit of Dr. Crawford he was ejected by Sheriff Hager. Dr. Crawford sought to recover the profits from the farm during Mr. Jones' occupancy.

Dr. Crawford purchased the farm of 216 acres on July 20, 1907. Mr. W. T. Warbutton stated, from Susan S. Clark and others. Henry Boulden occupied the property under a lease written by Dr. Crawford, which was supposed to run ten years, but was found to be voidable as not having been recorded. On June 9, 1908, Dr. Crawford, the new owner, notified Mr. Boulden to quit the farm on January 1, 1909 (moving day in the First district). In August, 1908, Mr. Boulden sold his personal property and put his son-in-law on the farm as sub-tenant under his lease, Mr. Jones refused to quit in January, 1909, and Dr. Crawford brought suit and had him ejected in September of that year. Dr. Crawford got none of the profits of the farm for that period and now sought to recover what was due him.

Mr. Constable, for the defendant, stated that Dr. Crawford found Henry Boulden occupying the farm when he bought the property, under a lease supposed to run for ten years, at a rental of $800 per annum. Under the lease he was allowed to put a barn on the place which cost about $600 and which he was to be allowed to remove when his tenancy expired. Dr. Crawford who had written the lease, became aware of its defect. Jones, as Boulden's sub-tenant tendered Dr. Crawtord the rent of the farm in semi-annual installments. Dr. Crawford now claimed $10,000 damages which was absurd. He was entitled to some compensation, but its amount was to be determined under the Court instruction.

Mr. Warbutton entered as evidence the deed for the Seaman farm to Dr. Crawford from Susan S. Clark and others the docket entries in his suit against Mr. Jones at the September term of 1909, his complaint made to Justice Johns, asking that Jones be summoned to show cause why he should not quit the farm the prayer granted at the Court trial in 1909, under which the jury found for Dr. Crawford, and the writ issued to Sheriff Hager to put him in possession of the property and his return made the writ.

The plaintiff amended his declaration, in effect changing the ground of action. The defendant asked for a continuance on the ground of surprise, which was granted after a juror had been withdrawn. The plaintiff then secured the removal of the case to Kent county.

MIKE THOMPSON OUT

Athletic Director Resigns From Job at Washington College.

Mike Thompson has resigned his professorship and position as coach of athletics at Washington College, Chestertown. Mike's resignation was accepted Monday by the Board of Visitors and Governors.

Thompson will affiliate himself as athletic instructor with Mount St. Mary's College, of Emmittsburg, Md., beginning April 1.

Mike handed in his resignation to President Cain, of Washington College, some time ago, but it was not acted upon until the meeting of the trustees.

Thompson has been connected with Washington College for several years, and during his time there his football teams attracted notice wherever they played. It was only a year ago the Chestertown collgeians nearly frightened the life out of Georgetown and a week later played George Washington University a rattling good game.

Last season the Thompsonites held Hopkins to no score, and only was counted upon by field goals. In that game Thompson's superb defense was brought out, but his offense was not so good. Mike was great on the former point of the game, and against elevens of like calibre his team did exceptionally well. One of the biggest victories last year was over Rutgers College.

Mike is quite a baseball general also, but, because of so few experienced men to work with at Washington, he was unable to develop his nines as he did his teams for the gridiron.

Thompson is known all over the East and Middle West as a football official. He has umpired many of the big contests, and last season umpired that of the Army and Navy, at Philadelphia. He will be very much missed at Washington College and the college athletic association regret to see him go. Dr. Cain and Dr. Sanborn will coach the baseball team.
