# CONSISTENT MR. LEE.

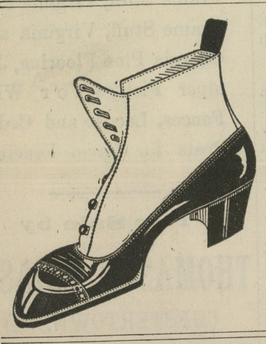

HON. BLAIR LEE.

Honorable Blair Lee, speaking from the same platform as Hon. Arthur P. Gorman and in advocacy of his, Mr. Gorman's election as Governor, said at Prince Frederick on Monday last, "The time has passed when to clean his party, a man must go to another party. We have tried that in the State before and it has failed. No Democrat should draw out of the Democratic party and turn to another party. His duty is within his own party. It is his duty to houseclean his party if it needs it. Men who change from one party to another and find in the other nothing better than in their own, and in return face the same responsibility, they shirk before they made the change.

"The supreme question in this campaign is not a party problem. But the great question is whether this State will continue to progress along the lines, so successfully followed thus far by Maryland under Democratic rule, or whether we shall turn the clock of progress back, and for no good reason to chance a temporary and divided administration out of which we can certainly hope to get no good for Maryland."

## MORE WATER PROVIDED

**Contract With J. S. Boas to Build New Pool at Morgan Spring at Once—Chemists Declare the Water Excellent.**

At a special meeting of the Chestertown Water Board Wednesday evening a contract was made with J. S. Boas, contractor and engineer of Philadelphia, to rebuild the old Morgan's pool. This gentleman built the U. S. Government reservoir at Fort Howard and did work at other places and is well recommended. He guaranteed to rebuild the old pool with reinforced concrete, free from pollution of any kind, and satisfactory in every particular, all connected with pump house for the sum of about $2560. Work is to be completed by December 1st.

Chestertown citizens should certainly feel grateful for the excellent water and the fullness of the supply. Our metropolis, Baltimore, has been in a serious condition because of the muddy water and the very limited quantity. In Charleston, S. C., all the mills were shut down and water for drinking purposes hauled by engine from a river near the city.

The Chestertown Water Board, however, are desirous of increasing the supply here and in this desire have the endorsement of the people. The special committee named sometime ago to suggest means to increase the supply unanimously recommended a test of the lower pool at foot of Queen street. This test has been carefully made and it was found that there was equally, if not more, water in this pool as there were in the main pool at the pump house. The quantity being assured the quality was next tested by Penniman & Browne and G. W. Lehman & Son, two reputable chemists of Baltimore, and a Philadelphia chemist. Mr. Lehman's analysis in short is as follows: "From the above analysis we have pronounced this water as excellent. It is unpolluted and contains a small amount of calcium and magnesium oxides which render it beneficial as a drinking water."

Mr. Penniman's analysis and also the other chemist practically corroborated this of his competitor. These analysis may be seen at the office of the Board. He writes a letter as follows:

"We enclose tabulated statements of analysis of water sent here July 19th, marked respectively "3.50 P. M. and 5 P. M."

"Our analyses show no evidence of pollution in these samples, other than the sample marked '5 P. M.' has a very much larger quantity of Chlorine (common salt) than the one marked '3.50 P. M.' In fact there is such a difference in all of the figures of this '5 P. M.' sample over that of the '3 50 P. M.", that we are forced to believe that there is some connection between this basin and the salt water, and that the composition of this basin water changes with the tides. Such water can hardly be considered a satisfactory source for a drinking supply as there is no possible method of determining how much of this salt water will enter the basin. Consequently you can never be sure of the composition of the water as delivered to the consumer."

*These two samples did not come from the same pool!* The President wanted to put the skill of these chemists to the test and they "made good." The surprising part of the report is that the 3 50 P. M. sample was taken from the lower, or pool in question, while the 5 P. M., test was taken from the "old reliable" at the pump house!

With these facts before them it would appear as if the special Committee acted wisely in their recommendation and that the Board will have plenty of good water for the patrons after new pool is properly enclosed and connected.

## BETTERTON NOTES.

Miss Grace M. Tull entertained a large party of her young friends at her home "The Maryland" on Friday evening, the occasion being her birthday.

A jolly good time was enjoyed by all, until a late hour, when they partook of delicious refreshments and parted wishing Miss Tull many more such pleasant birthdays. She was the recipient of many pretty and useful presents, one of which was a beautiful watch by her mother. Decorations were in red. The Misses Eva and Bessie Jewell assisted Miss Myrtle Tull in receiving the guests.

Miss Katie Crew is visiting friends in Baltimore.

Mrs. Mattie Tull is enjoying a week's vacation from Messrs. Owens & Co's store.

Miss Edna Brinsfield has returned home spending some time with Baltimore friends.

Mr. and Mrs. George W. Mann were in Baltimore during the week.

Messrs. John S. Owens, Howard Turner and James A. Brice expect to take in the base ball game in Philadelphia on Monday. Mr. Owens expects to drive over to Philadelphia in his auto.

Mr. John Brice is preparing to build another cottage on Brice Ave.

## CHESTERVILLE NOTES.

Mrs. Peter Stevens is spending sometime in Wilmington.

Dr. S. H. Anderson, of Woodwardsville, Md., spent several days at the parsonage this week.

### IN MEMORIAM

In sad but loving remembrance of our dear husband, ISAAC SIMMS, who departed this life two years ago today, October 12, 1909.
Think not, dear husband, that thou art forgotten,
For by us thou shalt never be;
As long as breath shall warm our face,
Our thoughts shall be of thee. WIFE.

Oh, father, dear, we loved you so,
How sad it was to part;
One thought of your dear face
Will cause the tears to start.
