THOMAS MORGAN,

WATCH AND CLOCK-MAKER,
Late of Philadelphia, at the Sign of the Arch Door, in Gay-Street, Baltimore.

TAKES this Method to acquaint the Publick, that he has employed Two Journeymen from London, who were regularly taught the Art and Mystery of Watch and Clock making; where he intends carrying on the Business in all its extensive Branches. Likewise, intends repairing and cleaning repeating, horizontal, musical, quarterly, and plain Watches and Clocks, after the best and best manner; and further, proposes to engage his Performance for One Year, provided the Owners do not abate the same, nor apply to unskilful Hands, where many good Watches are greatly abused for Want of Experience. Any Gentleman may, by applying, have new Watches and Clocks made after the neatest and best Construction; and he most gratefully acknowledges the many Favours he has received from the Publick, and hopes for a Continuance of them, as he will make it his constant study to merit their Esteem.

N. B. The said T. Morgan intends working at the same Rates and Prices as done at Philadelphia.

I HAVE lately imported, in the ship *John's* from London and *Poult* from Liverpool, a large and new Assortment of dry Goods, well adapted for the season, which I will sell on very moderate Terms, and which I am better enabled to do from their being exceeding well sold for. I have also imported a Quantity of *Liverpool* fine Bored Salt and good bottled Beer.

Newport, County of Kent, 17th of April, 1772.

RAN away from the Subscriber's plantation, near *Pross* Town, a Mulatto Man, whose name is *John's*; he is a lively Fellow, about 5 feet high, thin faced, has a small scar on the right Cheek-Bone, and has lost One of his lower front Teeth: Had on when he went away a blue Jacket, a white Cotton shirt, and a pair of blue Breeches; it is likely he may have changed these as he has different Suits. He plays on the Fiddle, works at night coopering, sawing and wheeling, is by Trade a Carpenter, has been putty well known as a Runaway for these 30 Years, and has given Correspondence among many white People, who never was once taken early by night. He has confessed to me and many others where he has been employed and white Houses he resorted to, that he worked for several by Stealth, which I have paid over in silence at this Time, but I shall not
