

that I never got but one order from Morris Nicholson and Greenleaf and that order, to the very letter, I complied with is true —

It is true that Morris Nicholson and Greenleaf have not since the 18th of August 1795 — written to me or waited on me either to pay me for my property — and now three years time — or to send me with their true cause a written discharge as their agent according to my contract with them on May 1794 — —

It is true that I have always had an agent in my service, poor as we both are, on the very spot that my operations were in progress when Morris Nicholson and Greenleaf superseded them — and he has been ready and desirous of selling ~~any~~ or doing any business for me with them and of transmitting to me any order or account —

If I had one millionth part to answer for in the "Fleeing" department as I am sure some persons have — I should be afraid to go to sleep — let my offended God woe in that situation with his Justice scourge me — and I should be afraid to show my face in the streets let my offended and injured fellow creatures — would retaliate —

As I live in the small way compared to some people — in the most ^{base} Foundation of Villany — I now live in Washington, before an awful Tribunal of Justice — on the 12th of last December — in the road of returning me my wool — brought forward an Oathman Knight of the Straw — to impeach me on his oath of Mal Conduct with Morris Nicholson & Greenleaf — Heaven be praised! I proved him perjured in every affirmation — this is an instance to verify the propensity Mankind have — and what length they will go to reduce their fellow creatures to their own level —
