IMPOTENCE-IMPUISSANCE. One of the most frequent penalties paid by Jan those who give unrestrained license to their T. passions is a loss of virile power. The young, Da unaware of the fearful results that may ensue, q are but too apt to commit excesses. Impo- Ge tency may, and does occur from stricture, Mo. gravel, deposites in the urine, and from many Jan other causes; but by far the most frequent S. source of it is an abuse of the sexuel organs, San by excessive venery or self-pollution-particu-Phi darly the last. Too great excitement of the Jan genital organs is, however, productive of oth- Jan er effects, besides premature impotency; it tends A. to derange the digestive functions, and weaken the physical and mental powers. Thus Ell parents and others are often deceived as to the Joh true source of the complaints of the youth B. and young men. It could be shown how at- Le tenuation of frame palpitation of the heart, W. derangement of the nervous system, cough, H. indigestion, and a train of symptoms, indica- Jol tive of consumption, are often ascribed to Jan wrong causes, when, in reality, they are the Jan consequence of an alluring and pernicious Joh practice, alike destructive to the mind and J.

Dr. Smith has given particular attention to N. the cure of female complaints. His method W of treating Suppression, Irregularities, and S. other complaints peculiar to their sex, is safe, N. and seldom requires but a short time to cure. W Patients can be cured at home by addressing a letter to Dr. Smith, describing symptoms, and Jo receive medicine, securely packed from obser- W vation, forwarded by express or otherwise, to

any part of the country.

N. B. Persons afflicted with any of the a- Jo. bove complaints will do well to avoid boasting D. impostors, whether foreign or native, as also C. the numerous Specifics, advertised as a certain W cure for any and every Disease. These preparations are put up to sell, but not to cure, and Jo often do much more harm than good, therefore avoid them. \* \*A word to the wise is
