Peters' Worm Lozenges
Are acknowledged by the faculty to be the most scientific and successful preparation for the destruction of worms ever offered to the public. There are several medicines advertised as specific in such cases, but they have proved so uncertain and worthless, as to have lost all confidence with the public. Some of them are so violent in their operation, as to frequently lead to fatal results; the public therefore, is cautioned against them. These lozenges, while they will be found to be perfectly safe, will at the same time never fail, where worms are present, to destroy them. These lozenges are entirely pleasant to the taste, and children will eat them as readily as a common Peppermint Lozenge. To parents, however, it is not without these lozenges, that a child can be cured of worms. Wm. Renshaw, merchant, of Hudson st., had a little girl eight years old who was given up by two physicians as incurable. They did not know what ailed her. One box of Peters' Worm Lozenges restored the child to perfect health.

Peters' Cough Lozenges
Are now rapidly superseding all other preparations for the relief of Coughs, Colds, Whooping Coughs, Asthma, Catarrh, tightness of the chest, Bronchitis, and similar pulmonary affections. It is now well established, that a large proportion of cases of consumption, by which so many valuable lives are annually sacrificed, owe their origin to neglected colds and coughs, which might easily have been removed at an early period. No medicine will be found so efficacious in curing such cases as these lozenges. They infallibly allay the cough by removing the irritation which keeps it up; while at the same time they promote expectoration, and relieve congestion.

Peters' Vegetable Shilling STRENGTHENING PLASTER.
This is not only the cheapest, but the best, most and most comfortable plaster in existence, and is prepared on a plan different altogether from any plaster now before the public.

Peters' Shilling Plaster is an easy and most effective remedy for pain in the breast, side, or stomach; weakness or pain in the chest, loins, or back; stiffness of the neck, affections of the limbs or joints, whether produced by rheumatism or other causes; habitual pain of the head or stomach; piles; colds; coughs; liver complaints; weakness of the spine; predisposition to break out in boils and pimples; inflammation of the frame; and for general debilitation.

Blacksmithing. REMOVAL.
The undersigned most respectfully informs the public, and his customers, that he has removed to the new Shop nearly opposite Stewart's Carriage shop, where he is prepared to execute every variety of work in his line, at the shortest notice and on the most reasonable terms.
