

Political.

Position of Edward Bates, the Tribune's Candidate for the Republican Nomination.

Concerning the opinions of Mr Bates on the various political topics of the day, the St. Louis Democrat says:

"He is wedded to the cause of Free Labor; both in opinion and practice. He denies that the Constitution extends Slavery over the Territories; he declares that Slavery shall not be permitted to enter any Territory which was free soil when acquired by the United States, or which became free at any period subsequent to its acquisition; that no power but Congress can plant slavery on such soil; and that the Dred Scott decision merely defines the constitutional status of the negro—the discursive essays of the Justices which being, in his opinion, mere leather and prunella, possessing no intrinsic weight, and entitled to no extraordinary consideration, either legally or politically.

But Mr. Bates rejects the motto "No more slave States." He argues that neither public policy, precedent, nor the Constitution, authorizes Congress, or the Executive to discriminate between free and slave States, in their application for admission into the Union; and in this he fully concurs with him. The policy which has received the sanction of the founders of the Republic, and which was carried out by Jefferson himself, needs no defence, and may dispense with eulogy.

Such are the opinions of Mr. Bates, on the relation of slavery to the Territories, from their organization to their admission as States into the Union. For the rest, his opinions are such as might be inferred, from his former political associations. He is a Protectionist, which we regret; in favor of the improvement of lake and river navigation by the general government; emphatically in favor of a railroad to the Pacific, on any route which Congress may choose; opposed to the consolidation of the mongrel populations of Spanish America with the people of the United States; and in favor of governing our international relations by the principles of public law, not by the code of pirates. He has all that horror of slavery agitation and all that devotion to the nation which distinguished old Whigs who have not turned national Democrats.

Whitisms.

Ant Dorothy had a wonderful fondness for singing in Methodist meetings, the negro meetings, especially in missionary meetings. Then her voice would be heard above all the rest, screaming out, "From Greenland's icy mountains," or some other equally moving hymn. But when the plates came around for the collection, Aunt Dorothy always sang louder, and still louder, with her eyes fixed on the wall, so that the collector thought she had passed her seat. One night she was thus rapt in ecstasy, singing at the top of her voice and gazing at the ceiling, "Fly abroad, thou mighty Goshawk," when Jack Bones came along with the plate, and touching the old woman with his left hand, said, "Look a here, Anty, you needn't keep on singing 'fly abroad,' you mighty Goshawk, less you gib something to make it fly."

I'm thinking of the time Kate, when sitting by the side, and she was, I gazed on thee, and felt a wondrous pride. In silence I leaned over the pan, and neither spoke a word, but the rattling of the beans, Kate was all the sound we heard. The autumn curls hung down, Kate, and kissed the lily cheek; azure eyes half filled with tears bespeaking a spirit meek. "To be so charmed as I was then; ne'er before occurred, when the rattling beans, Kate, was all the sound I heard. I thought it was not wrong, to keep up a lot of beans, you snatched up a lot of beans, I snatched a nectared kiss. And a sudden shower made my eyes blind, and neither saw nor stirred, but the rattling of the beans, Kate, was all the sound I heard.

Some heartless wretch, who should have been punished by being tied to a post with his face within six inches of kissing distance of a pair of bewitching "cherry lips," feminine lips, with the certainty of never reducing that number of inches between him and bliss, says "his ship is called sea because man knows not the expense till he gets one because they are useless without enjoyment—because they looked best when they were—because their value depends upon—because they are upright when they are—because they bring news from home and carry out news from home."

Tom Hood mentions the case of an old man who had let a large sum of money, and interest upon it at nine per cent, and which was the legal rate. The man, however, at last asked the old man to believe in a God, and he went to go when he died the old Hebrew, with a pleasant eye and grin, "I have thought of you when I look down upon my grave, but when I appear to him like

Howard Association, PHILADELPHIA.

A Benevolent Institution established by special Endowment, for the relief of the Sick and Distressed, afflicted with Venereal and Epidemic Diseases.

THE HOWARD ASSOCIATION, in view of the awful destruction of human life caused by Sexual diseases, and the deceptions practiced upon the unfortunate victims of such diseases by quacks, several years ago directed their Consulting Surgeon, as a CHARITABLE ACT worthy of their name, to open a Dispensary for the treatment of this class of diseases, in all their forms, and to give medical advice gratis to all who apply by letter, with a description of their condition, (ages, occupation, habits of life, &c.) and in case of extreme poverty to furnish medicines free of charge. It is needless to add that the Association commands the highest medical skill of the age, and will furnish the most approved modern treatment.

The Directors of the Association, in their Annual Report upon the treatment of Sexual Diseases, express the highest satisfaction with the success which has attended the labors of their Surgeons in the cure of Spermatorrhoea, Seminal Weakness, Gonorrhoea, and other Disorders of the Sexual organs, by the System of the Kidneys and bladder, &c., and order a continuance of the same plan for the ensuing year.

The Directors, on a review of the past, feel assured that their labors in this sphere of benevolent effort have been of great benefit to the afflicted, especially to the young, and they have resolved to devote themselves, with renewed zeal, to this very important and much despised cause.

An admirable Report on Spermatorrhoea, or Seminal Weakness, the vice of Onanism, Masturbation, or Self-Abuse, and other Disorders of the Sexual organs, by the Consulting Surgeon, will be sent by mail (in a sealed envelope) FREE OF CHARGE, on receipt of two stamps for postage. Other reports and tracts on the nature and treatment of Sexual diseases, diet, &c., are constantly being published for gratuitous distribution, and will be sent to the afflicted. Some of the new remedies and methods of treatment discovered during the last year, are of great value.

Address, for Report or treatment, Dr. J. SKILLIN HOUGHTON, Acting Surgeon, Howard Association, No. 2 South Ninth St., Philadelphia, Pa.

By order of the Directors, EZRA D. HEARTWELL, President. GEO. FAIRCHILD, Secretary. March 22, 1859.—ly.

W. S. TURPIN. I have used extensively Jourdan's Ammoniated Superphosphate of Lime, for 2 years, upon wheat and corn. The effect was great and profitable in the increase of both crops, and to me highly satisfactory, having proved a cheap and valuable fertilizer. I regard it as being among the very best concentrated manures in use. Geo. W. CUMMINGS, Smyrna, April 1, 1856.

I tried "Jourdan's Superphosphate of Lime" last fall, on wheat, to a limited extent, and found (at harvest) the wheat equal to where Guano on the one side, and manure on the other side, were applied. I tried to apply the same quantity (300 lbs. per acre,) of each, the ground prepared alike; the Phosphate of lime after, being the only difference; the soil sandy loam. I wish you to send me three tons more of the same article, for my wheat crop of this fall sowing, for I believe in the quality of it. Wm. COLLINS, Kent Co., Del., Oct. 4, 1855.

Last year furnished my tenants with twenty tons of Jourdan's Ammoniated Superphosphate of Lime, which was applied to the corn crop in the hills, and I was much pleased with its effects. The corn stood well and grew rapidly, and the crop was, I have reason to believe, greatly increased in consequence of the application of the fertilizer. DAVID J. CUMMINGS, Smyrna, Del., March 31, 1856.

Notice to Farmers.

I HAVE received an appointment for the sale of Jourdan's Superphosphate of Lime. This Fertilizer has been used extensively in Delaware for the last five or six years with great success, and in this county by Dr. W. S. Turpin, who has been so much pleased with its results that he has continued its use for several years.

Price \$45 per ton. Apply to March 15, 1859.—if. A. S. GODWIN, CENTREVILLE, Queen Ann's Co., March 10th, 1859.

A. S. Godwin, Esq., Dr. Sir: Learning that you are appointed agent for the sale of "Jourdan's Superphosphate of Lime," I take pleasure in saying to the public that I have used it for several years, on wheat and corn, with satisfactory results. I consider it the best Phosphatic manure I have used.
