Howard Association, PHILADELPHIA.

A Benevolent Institution established by special Endowment, for the relief of the Sick and Distressed, afflicted with Venereal and Epidemic Diseases.

THE HOWARD ASSOCIATION, in view of the awful destruction of human life caused by Sexual diseases, and the deceptions practiced upon the unfortunate victims of such diseases by quacks, several years ago directed their Consulting Surgeon, as a CHARITABLE ACT worthy of their name, to open a Dispensary for the treatment of this class of diseases, in all their forms, and to give medical advice gratis to all who apply by letter, with a description of their condition, (ages, occupation, habits of life, &c.) and in case of extreme poverty to furnish medicines free of charge. It is needless to add that the Association commands the highest medical skill of the age, and will furnish the most approved modern treatment.

The Directors of the Association, in their Annual Report upon the treatment of Sexual Diseases, express the highest satisfaction with the success which has attended the labors of their Surgeons in the cure of Syphilitic, Seminal Weakness, Gonorrhoea, Gleet, Spilis, the vice of Onanism or Self-Abuse, Diseases of the Kidneys and bladder, &c., and order a continuance of the same plan for the ensuing year.

The Directors, on a review of the past, feel assured that their labors in this sphere of benevolent effort have been of great benefit to the afflicted, especially to the young, and they have resolved to devote themselves, with renewed zeal, to this very important and much despised cause.

An admirable Report on Spermatorrhoea, or Seminal Weakness, the vice of Onanism, Masturbation, or Self-Abuse, and other Diseases of the Sexual organs, by the Consulting Surgeon, will be sent by mail (in a sealed envelope) FREE OF CHARGE, on receipt of ten stamps for postage. Other reports and tracts on the nature and treatment of Sexual diseases, diet, &c., are constantly being published for gratuitous distribution, and will be sent to the afflicted. Some of the new remedies and methods of treatment discovered during the last year, are of great value.

Address, for Report or treatment, DR. J. SKILLIN HOUGHTON, Acting Surgeon, Howard Association, No. 2 South Ninth St., Philadelphia, Pa.

By order of the Directors, EZRA D. HEARTWELL, President

GEO. FAIRCHILD, Secretary, March 22, 1859.—ly.

Notice to Farmers.

I HAVE received an appointment for the sale of "Jordan's Superphosphate of Lime." This Fertilizer has been used extensively in Delaware for the last five or six years with great success, and in this county by Dr. W. S. Turpin, who has been so much pleased with its results that he has continued its use for several years.

Price \$45 per ton. Apply to March 15, 1859.—lf. A. S. GODWIN CERTIFICATE. Centreville, Queen Ann's Co., March 10th, 1859.

A. S. GODWIN, Esq., Dr. Sir: Learning that you are appointed agent for the sale of "Jordan's Superphosphate of Lime," I take pleasure in saying to the public that I have used it for several years, on wheat and corn, with satisfactory results. I consider it the best Phosphatic manure I have used.

W. S. TURPIN. I have used extensively Jordan's Ammoniated Superphosphate of Lime, for 2 years, upon wheat and corn. The effect was great and profitable in the increase of both crops, and to me highly satisfactory, having proved a cheap and valuable fertilizer. I regard it as being among the very best concentrated manures in use.

Smyrna, April 1, 1856. I tried "Jordan's Superphosphate of Lime" last fall, on wheat, to a limited extent, and found (at harvest) the wheat equal to where Guano on the one side, and manure on the other, side, were applied. I tried to apply the same quantity (300 lbs. per acre,) of each, the ground prepared alike; the Guano sowed before planting, and the Phosphate of lime after, being the only difference; the soil sandy loam. I wish you to send me three tons more of the same article, for my wheat crop of this fall sowing, for I believe in the quality of it. Wm. COLLINS. Kent Co., Del., Oct. 4, 1855.

Last year I furnished my tenants with twenty tons of Jordan's Ammoniated Superphosphate of Lime, which was applied to the corn crop in the hills, and I was much pleased with its effects. The corn stood well and grew rapidly, and the crop was, I have reason to believe, greatly increased in consequence of the application of the fertilizer. DAVID J. CUMMINGS. Smyrna, Del., March 31, 1856.
