

in course if Shunk took rails off my fence it would not
be stealing but trespass I believe I have answered all
your interrogatories my going up is uncertain money is
truly scarce I must pay 40¢ into Bank tomorrow
& when it will come from I don't know, it is borrowed
money - We are all well, I presume H & the Children
will go to Fairport on or before 1st July - In case Eck
closes the road at the spring Let Garber & all travel
know that Eck's doing so imposes no obligation
on me to give them another road let them stick
to the old road & they & Eck fight it out, I suppose
in the district Courts where more than on magistrates
sets of a chance is better at law than it used to be
I want you to make me a present only as far
as it will not inconvenience you I feel
the want of a box of instruments & you
have one of an dont use know than
the compass & scale & you have them
besides those in the box. It is a splendid
box & I would try & have it filled with
the deprecient trap instruments If you
would give me the box, semicircle, dividing
rule, trap scale & the small compasses I
would supply the others - you have the
compasses & a wooden scale - If you cant
I care them no matter about it

Yours truly
Bernie B
