

perfectly it appears as uncertain that the article is
very valuable. It is a pity you could not use your money
to make internal provision that at present we
have some consequences to you. We want to buy my work
but I believe we can only get them cheap enough
in sufficient quantity for a great distance and
the back parts of the way because of the low & because
not seem to close with us as they were to be so
valuable. The price of type is much higher with you
than here, it has been sold in small quantity at 40
cents per new element 000 some low total has been
sold at 70 & 75 cents is 80 when 23 per bolt

We should be glad to see you when you are
any way to Annapolis. You sold a ship the price
and after being 9 days out met with damage &
was obliged to go into New York. We have newspapers
Lumpool to the 8th July but they contain no
thing of importance. A Mr Duff a cotton
mechanic maker is come out here from Belfast
to get employment at our large factory. He gives
great accts of the state of the cotton business there,
but says failures are frequent. Mr White continues
very well here, & that the family join me in what
respects to Mrs. Dornier & the family by yours
truly
I White
