

in offering to them an opportunity
of improving the breed of their Cattle
& Sheep - As you will have both
the breed of the Dutch & Merino - they
may have variety - I am certain
that the cross with the Merino - or
our common Sheep - improve the
Sheep very much - The Boy who
attends my Cows - informs me that
the Large Cow - took my Bull -
the Brindle one you saw - about
5 or 6 weeks since - as the Cow
is young enough to bring two or
three more Calves yet - I would
advise you to take one more
Calf - at least, from her -

Best Friends here and at
Annapolis - all are well
- We all here unite in
best respects to Mrs. Mearns
& yourself -
Yrs. respectfully
H. Maynard
