18th I will now begin with Addition and
go regularly through the Book mending the
rules and also my Greek and Latin, M. Hunt
wanted to put me and my class into Blair's
^{retcher} ~~lectures~~, but I told him that I would
sooner learn to trace the maps & Globes
He said we ought to have done that when
we were in geography but had not time
So I think he ought to teach us that

now since he has time, Our Examinations
are to be on this day week, when I hope
to receive a letter from you, whether I am
to remain here or not. Poy is in Hanover

in Hanover at Mr Little opposite Eickbergers
