

Know that Thorndale is in Cal City & if they do letters that directed
come here - I observe Annapolis gains a little & loses nothing
every old negro hut, fence office house & c. then 30 yrs ago are still
there or their remains. I was there 12 days & in Balto on Monday
I could have staid longer but was anxious to be home at least
by Friday. We are all well - John Branan is now
a kind of store broker for groceries, carrying about samples

Yrs Sincerely
C. B. J.

I intended to have kept worthy this winter but I find my popularity is
increasing & a knowledge of my character spreading & have concluded that
it will be well to commence myself as little as possible & take advantage of it
Last Saturday in Dec. there will be a quarterly conference at double pipe
Creek where I will have an opportunity of increasing my acquaintance
beneficially I hope. I do think my chances are increasing. Madly is fast
sinking even with his own party & Raymond is charged with great neglect
Molly took steers home he was offered only \$3 they were good but not fine
