This House have considd the Papers by Hond. were pleasd to lay before them relating to the disapprobation of Lo Dall Laws lately passd & therein they find incinuated the reasons by Lo Hond. for disallowance of the same — which if before Hond. this House may be communicated to them —

And as to that part of the Message that relates to the Chancellor Justice charge this House have debated the same and resolved upon the Question put whether the Country ought to pay or allow any thing for such charge or not, That the Country ought not to pay such charge. That Constitution being very ill convenient to the Country imposed upon them & not their consent.
