

Donostia Encerrion, as well as in hadit our former  
 Resolution about the determination of money bills, we  
 cannot agree to your proposed Expedient.

You have now the Bill for Encouragement of His  
 Majesty's Levies in your possession, and we have put  
 it in your power by sending down our other bill with  
 their usual duration, to have that for defense of the  
 Province, so that we hope it will not be imputed to us  
 that they are not passed into Law.

Signed by order

Immaculada Ollo.
