

By the Lower House of Assembly

15th December 1787

May it please your Honours

We conceived the Bill herewith sent to be a money Bill as it alters the appropriation of publick Money and have therefore ordered it without giving it a second reading

As the Business before this House is completed and the Season so far advanced that the Severity of the Weather may probably incommode us greatly in returning to our respective Homes we must request your Honours will dispatch what Business lies before you that a speedy End may be put to this Session

Signed for

Immaculata Moho?
