

By the lower House of Assembly  
 May it please your Honours  
 July the 21 1721

169  
 We have seriously weighed your Honours Recommendation to us relating to the granting a Supply for erecting a Light House on Cap. Henry, but as We are altogether Ignorant of the Reasons inducing the Government of Virginia to recommend this Affair to us & are also at a Loss of what Advantages or Whether any it may be to Trade. We beg Leave to defer coming to any Resolution there untill such Time as that Government is pleased to be more particular in that if we find likely to be advantageous We shall then fall into such Measures as we be thought reasonable
