Sir 88 Annapolis 20th February 1782

Lieutenants Le Vaschor de Vaubrun, Bagnos, and Chevier, inform me they are in great distress for Money, which I believe is really the Case as they have no other resources but such as result from their Pay—

They each wish to obtain an Advance of Fifty Pounds red Money—being Foreigners, without Pay or other means of Support, their distresses merit your Attention, and must require the above Sum if it can be consistently advanced.

I am Sir

Your most Obed.t Serv.t

W Smallwood
