

Were going down the back stairs to
let in when L. saw Dr. W. was in
L. we could get in that way. L. Shook
I knew at the door - after we knocked
over we started to go down the back way.
L. said he thought he could reach the Dr. but
he took hold the knob of the door & shook it
violently & open we saw what seemed a good
chance for Dr. W. to enter the door. That
there is only one lock at the door. L.
said to Dr. W. we had come to look for
L. see if we could see anything of Dr. P. or
get any clue to him. I did not exactly
hear what Dr. W. said. We went through
bedroom room & into lower laboratory. We
were there but few minutes. There was
all the search in his rooms - On that
day we did not get anything - We looked
round. I think Dr. W. came down into
the laboratory - He did not speak to
us. What Cor. he had was with L.
- After we got through them at the college
I went back again to Cambridge Mass
than all about that
