what he th^t of him if he did not come up
to his ideas of honesty - He would tell me he
was known & dishonest, or if he supposed so.

would use more language in reply.

at 2^d search Clapp was one who looked
at the Minerals, & I think both the
other officers did - The Minerals were
taken in the boxes - Shells & on the box.
- I took some of them in my hands - I
cannot say positively that any of them were
taken from the sea chest - but all from
near that -

I think it was about the time
we were going out that Dr L spoke
to L. about the being of his letter.

I noticed the fire before I
looked at the Minerals; & I think
