

seen on his breast when he is asleep. I had
seen his leg - he pulled up his pants to
show me that he had no drawers &
that he was not cold.

The hair on the remains was of
the same colour as that I had seen on
the carcass - the leg was of the
same form & composition, but I could
not identify that as well.

The form size & length compared
with Dr P.

Nothing dissimilar to Dr P. in any thing
what I saw.

I have Dr P. work false teeth,
I finally took charge of the remains & have
them entombed on the remains of Dr Pochman.

Dr. P. was of
Wisconsin

About 18th Apr 1848 I recd word from Dr
Adams for purchase into prison. I am^d by boys
I had seen him and any at night. He came
to me & told me of his great Embarrassment -
that he was badly kept - that he expected a shuffling
would be all his doom to take his punishment of him
and not buy off some passing debts which had
been standing a twelve months. He then
