found them Frenchman & Littlefield & Clapp -

We went first into the apartment -

We went into a room - & then we
~~Frenchman~~, Clapp, went down through the
trap door into the cellar. We got out to the
ground & stepped 60 to 70 feet into span of corner
where was foundation of building & trap door -
through the trap door was a hole about 18
inches square which had been freshly made -
the mortar had been freshly broken.
L. Frenchman, Clapp & Mezilow & I all
went through the trap door, as I have
stated.

Plans of the building introduced - &c.

Model of the building.

When we arrived at the corner where
the hole was made, I asked the gentleman a
stop. I got a light & asked Col. Clapp to
look at it. I held the lamp in, as well as I
could. I saw above appeared to be black. The
water was running from hole above &
shook in the wall & splattered round -
after looking, I asked Frenchman & L. &
to go off one the remains, I got a
