

for the season, & he had Dr. Lane put my portrait
with this inscription. On stairs while the things are
being put up - 5 sets perhaps - not over 10 sets -
He then moved towards the door, he passed by &
went into Blooper, as he was going out he hesitated
& I thought he started toward the center I made
some remarks which I did not hear, I did
not know what it was. He spoke to Holland.
I did not know where any in court

X I was out in court at this time, - I went in
to make bundles, and did business & then before 11
I wrote letters off same.

I never saw Dr. P. How, he was same as he
always was, no delay in his house - if there was any
it was on behalf of men who waited on him.
I did as if I was in. - I got the train from my
leaving & my movements & to suppose that maybe he
about the time of my going out - I did not stop
the train by any clock. - If I was in court I
maybe be a lot as to a man

I was up before Crocker's funeral - done that
was as far as to time Dr. P. left, - I took the very
last day to the office where I thought was the time.
I felt very thirsty of my using the Dr. Lane
say I told him the time I saw him. He was
sitting in an afternoon car so that the
thirsty came then. I was not one I think that
afternoon. I only was thirsty that I had seen the
doctor. - I do not recollect when I saw him
him not told any one else more about the
time I thought it was that Dr. P. was in his room
