

Same day the remains were found. The
same after dinner. I got a children
drill about 4 feet long - which is an iron
bar with steel at each end. He took the
bar & was gone an hour or an hour & a
half; came back & wanted a hammer &
chisel. When he came he laid off his
coat & jacket & trousers; he was working
dirty. - I could say if he knew any
officers of the war. My brother
Albert let him have a chisel, & I got a
hammer for him from the shop. He took
the hammer & chisel & went to the
College & I saw no more of him that
night.

I knew Dr P. I saw him Sunday the
23^d; but can't say positively what time of the
day it was. He was in habit of going
into my brother's counting room every day.
I have known him for last 10 yrs - I did
not see him in the afternoon when my
brother died. He was usually very drunk.
I saw nothing peculiar about him when
I saw him.

X I saw Dr P. in ~~Spring~~ St. I saw him
and saw his
my cousin; and he was dirty.
11 3.
