

sent for me. I arrived at the College February
afternoon. I called on Dr. Gay & Dr. Weston
to assist. I also thought it advisable to call on
Assistant of Dr. Jeffries Wyman Professor in
Harvard College. We met next day.

Dr. Wyman took charge of the bones found in the
burial. Dr. Gay & I each took charge of the
to make the chemical analysis.

Dr. Wyman also took charge of certain articles
supposed to have blood on them.

Dr. Gay from & myself prepared a Report
on parts of the body which are particularly
inspected. We made our report, or statement, to the
Coroner's Jury. It was made in writing and
signed by us all & sworn to.

Mum. The Report of Dr. Gay Lewis &
Stone - given was -

Diagram is shown to Jury

We inform in reference to the system that
some chemical agent has been applied, the
internal vessels with the penetration of the
Chemical agent.

There would be removal from person
before from things might be done without preparation
still.
