

and externally - most likely would flow
externally, -

I have had a demonstrator room
opposite for Dr W. taken from - but was it
my own. I would be more readily
taken for Dr W. room than though perhaps
than for my room - than a my room -

I can say that I can say they think
was the effect of pain on the person of Dr P.
I am not much affected with the effect of
Caustic. I did not smell any
odor from the body.

was not blown very far from -
and without any effusion of blood -

William S. Eator. I am a police Officer. He was present
I scraped the body ^{after it} ~~off~~ the ~~body~~ was taken
from the back chest.

I was searching with Fuller; both
of us were taking movements from the back chest
He took it out & turned it over & the
body came out. Fuller took over the back
consequently can see on the back; & then I
saw a small hole cut on the side. I saw
the hole immediately before any one had
