

From Judge Merritt

Questions to Little ϕ - in such manner & timing
as not to let him suspect why asked.

~~Did you~~ Who washed the ~~windows of~~
glass vessels or used by Dr W. in his
lectures?

Did you wash any thing else?

Who washed the windows?

How did you wash them?

When did you wash them last?

Where did you stand, or did you
use a common window washing
machine or seat?

Did you go round the College every
night & see all safe?

Was there sometimes much smoke or
gas in Dr W's lecture room?

Were the windows opened to let it
out?

Did Dr W. even find fault with you
for leaving them open all night?
