

The girls also will testify that my daughter Mrs Dabney left behind a variety of books, with 2c books & - & that we had also other things to send her - that I said I would have the tin box made for that purpose.

Twine (sundries) I used in tying up plants in the garden -

There is a drawer for twine of all kinds in the outer back room up stairs in my room at the M. C. also a roller with it in the wall - Any one who got to the "Skeleton Keys" & others could open doors. -

So let me have a word from you to night - I cannot hold out much longer - So be hand upon them for pushing so many untruths & trifling things against me -

The girls remember I spoke of giving blankets to Mrs Kavanagh, about Thanksgiving, but they advised me to keep them till Christmas, as the K's were Catholics.

About the letters - I have over 100 written letters & ~~in my possession~~ in 1885 - & the police searched & picked out from all strange if no resemblance found.

I write in great haste & in all ways - the letters if worn to will affect my composure more than any they get.
