

If Burn - carpenters man is
asked he will say there were
3 keys to the 3 new locks
he put on & that 1 put
one on my bundle & the
other 2 he put in the
drawer in the small room -
now if only 1 has been found
in the drawer & 1 on my
bundle - where is the other?
I think the key had number
20 stamped on it.

L. had an iron key to the
lock on the door of the
partition in lower laboratory
& having got in by the window
on thro' the passage from the
dissecting room entry, could
unlock the door & use his
key
