

H. G. Shaw must recollect
it was distinctly said by him
to me I might sell the
minerals any time &
repay him

You will find I could not
have had time to him, cut
up &c if you examine the
times I was away - I could
not have done it twice in a
day after day, as students &
liable to come in & find the
body on marks - It must
have been done at night
& probably Friday if there
are hints of the trade - If it
was O - & did it I certainly would
not have left the M.C. until all
finished &c
