

Mr C. Cunningham & every
one almost who has been
at my house can testify
as to the Gabagas or
sheathed bunch berries
been on the mantle piece
with other objects of
curiosity -

The family can also testify
that I had used it some-
times as a carrying bucket -

Altho' the saw had
a back to it - I used it
to prune bushes & small
shoots in my garden

It has been my custom
every year - a short time
before the Mel. Lectures
commenced to send in a
variety of articles for use
in the lectures & often with
them others to be repaid -
