The glass L- was told to take
for the blood had a foot to
it - was not a plain straight-
one - like this U but II

I gave L- tickets to the
~~some~~ ^{some} exhibition at
the Mammie Temple this
winter & he and them

How could he recognize
a man by seeing only up to
his knees

Was not Dr W much in the
habit of humming a tune or
whistling when he was at work

Was Dr W always alone when
preparing his lectures, &c

Did he ever do much writing
or reading at the college - or
stay in the evening late
