

Dr Henchman came. So
told me the story about the
murder. I think Jonathan
was in his shop - & I think
he or his boy told about
a cat having been found
with blood in it & that
Mr Hornen had been
to inquire & found it
giving the murder -

The boy also told about
Dr S's strange conduct
in coming there with
a check of 500 \$s &
wanting it changed -

Dr H - may say some-
thing about my manner
which should if possible
be ascertained before you
use him - I saw him
among the witnesses yesterday
