

A chemist would take
the very reverse of
an Alkali Sotash —
he would use an Acid

Buckie recollects speaking to
me in Brutale St "either
Monday or Tuesday about 2"
The other testimony of the girls
may perhaps fix the day
if of consequence —

Surely L-d who has
applied &c in cutting up
& opening & sewing up
bodies (hundreds) & seen
Dr Warner — Pearson can
&c open them must be
perfectly familiar with
all the difficulties &c

Thursday, March 28th, 1867.
