

The facts to sustain this proposition must come from  
 Mrs. Littlefield - Mrs. Littlefield - the family -  
 - also by the bottle & others who called to leave a set of W. & L.  
 find the room fasted in view.  
 unless this had also the Govt will attempt to  
 show that the remains were found in such  
 situations - in the spring vault - in the back of  
 Council of Ministers - & the fragments of bones & in  
 the furnace - as to obtain a clear picture to  
 destroy all evidence of identity, & effectively to  
 conceal the body.

As to other sections room was visited by diff<sup>r</sup> persons - by the  
 Police, the rooms were found to be fasted by Dr W. within.

The best effort must be here, to disprove

the testimony of Littlefield - & to disprove the  
 change in the manner of using & securing the  
 premises occupied by Dr W.

1. By intrinsic evidence from the testimony of  
 Littlefield himself - as for instance  
 his unaccountable vigilance in observing  
 the locking of Dr W. doors before he started  
 to leave his very suspicious - & was  
 & by a before he knew Dr P. was missing.

2. By showing the room was in fact  
 accessible -

1. By the construction of the door - windows &
2. By fact that the doors were  
 repeatedly entered during the week preceding  
 the 30th Nov

3. By any discrepancies which may
