

The instance of mistake occurs in the testimony  
of the Medical gentlemen, which is worth noting -  
One of them says the appearance of having been burnt by fire, and the  
says the appearance was produced by a caustic  
substance - probably potash.

Mem<sup>o</sup>

Frenholm (p 68) says there  
 Littlefield on Saturday Dec 24<sup>th</sup> saw  
 in town Dr P. 3 or 4 days before

Am

Lee did not know by name

the name

See also Winkler's name page  
 when he says that L. told him that  
2 or 3 days before he reported Dr W  
 & compare the note when L. was  
 100

vide p 69 - Frenholm found nothing  
 in the vault but the remains  
 He mentions nothing of  
 any vessels.
