

L. knew where every thing was to be found
 - he knew of the fence before the window
 was air closed -

he knew the tea chest was empty of articles
 he was the person who ~~did~~ only thought of
 breaking through the wall - Why did we
 look or ~~not~~ to look into the prison.

The strange talk of L. with Sturges & others
 & especially with Newbold Friday afternoon
 Nov (30th Nov) - How did

Littlefield know that Dr W had
 some keys - (in fact he had two, he
 appeared within a very few minutes &
 spoke to the porter,) & how could he
 possibly know that Dr W had the key of
 the prison?

How confident L is that Dr W must
 have known of the existence of the window when
 they were found?

L considered at least one of the searches
 after his suspicious was aroused; why was he
 so careful in carrying it -
