

11/11
Conclusion that with unprobabilities done
for w - w^2 have to consider

1. Total alteration of conduct causing
impairment.
2. how improb. for w^2 have multiple
broods.
3. Con. on finding with w also runs
+ with L^2 about w movements
on structure a w intervals

General aspect -

to long little of want of motion -

Time to place -

No records of violence

Eff² to waste the body

1. by chemical agents
2. acting up to def 7 in w and
3. Promotion of every thing like w and w^2
wasting w and w^2 and w^3
and the w to w^2 and w^3
4. Height to use best w and w^2
or strong - w and w^2

Conclusion of w and w^2 .

1. Relation to w and w^2 parts - w and w^2
wholly unknown
2. Conduct w and w^2
during the work
