

accused, The man claimed the as his Dutt Plate
I was called as a witness in the case, after taking
the Impression of the mans mouth placing the Plate
upon the Plaster Cast it was proved that the Plate
could never belonged to him or ever fitted to his mouth
after this he found his own Plate Dutt &c, so you see
it is an easy thing to be deceived in a block of Jew
I can produce just a block of Dutt, that will
to ten different mouths with the Plaster Casts perfect
and further more if that block of Dutt had been he
as it had, it must of changed it's color and shape
as the other do, as much so a piece of Glass, either

P.S. I trust you will consider these facts
in relation to Dr. Phipps testimony, and I am sure
that I could show to any Court that the block he has
has nothing to do with fastening any gilt or No. 11

Yours
Ever Your Obedt
