THE ATTENTION OF FARMERS

IS requested to a new Fertilizer, prepared from the night soil collected from the sinks and privies of New York City, by the Lodi Manufacturing Co., and manufactured without any adulteration whatever, into an inodorous and powerful manure, something like Guano, but less caustic, and less exhausting to the soil.

It is called "Tafeu," from the Chinese word signifying prepared night soil, and is the only article of the kind ever manufactured in this country. It is warranted to be 95 per cent. pure night soil; and from its ease of transportation and application, and the small quantity required to produce the same result as heavier manures, it is the cheapest manure ever offered for sale. For Grass in the fall, Winter Grain, or for Garden Vegetables, it has no equal. From 300 to 600 lbs. per acre is all the dressing required for the poorest soils. A fair trial in competition with other manures is respectfully asked. Packed in bbls. of 240 lbs. or bags of 125 lbs. Price $35 per ton, 1 3-4 cts. per lb.—delivered free of cartage on board of Vessels or Railroads in the City of New York.

It has now a surplus of means, which the Directors have voted to advertise the above notice. It is needless to add that the Association commands the highest Medical skill of the age, and will furnish the most approved modern treatment. CARRIAGES.

THE subscriber has now on hand the largest and best assortment of CARRIAGES ever offered in this city (Washington)—ALL OF HIS OWN MANUFACTURE. From the experience and advantages that he possesses, he thinks that he can supply on better terms than any other person engaged in the business. His Carriages are not gotten up in a hurry merely for sale, but are made from seasoned timber and then allowed to stand several months before finishing, the wheels and bodies especially. This no doubt gives the purchaser an advantage of from 10 to 30 per cent over those built especially to order, and consequently made in a hurry. Having a regular and steady custom every Carriage is built so that he feels no fear in selling them to his best friends and customers. He offers Carriages of every description for sale at the most reasonable and moderate prices. He invites the attention of his friends and the public to an examination of his stock and materials.

EVIDENCE OF SAFETY.

New-York, June 11, 1855.

"I have made a chemical examination of 'RHODES' FEVER AND AGUE CURE,' or 'ANTIDOTE TO MALARIA,' and have tested it for Arsenic, Mercury, Quinine, and Strychnine, but have not found a particle of either in it, nor have I found any substance in its composition that would prove injurious to the constitution.

JAMES B. CHILTON, M. D., Chemist."

EVIDENCE OF MERIT.

"LEWISBURG, Union Co., Pa., May 2, 1855.

MR. J. A. RHODES—Dear Sir: The box of medicine you sent me was duly received on the 11th of April. I have sold about one half of it, and so far the people who have used it are satisfied that it has cured them. It has certainly stopped the Ague in every one who has used it, and six of the cases were of long standing. My sister, who has had it for five or six years back, and could never get it stopped, except by Quinine, and that only as long as she would take it, is now, I think, entirely cured by your remedy. C. R. MCGINLY."

CAUTION TO AGUE SUFFERERS.

Take no more Arsenic, Tonics, Mercury, Quinine, Febrifuges, Strychnine, or Anti-Periodics of any kind. The well known inefficiency of these noxious poisons proves them to be the offspring either of false medical principles, or of mercenary quacks. The only remedy in existence that is both sure and harmless is RHODES' FEVER AND AGUE CURE.
