RICHMOND, Tioga Co., Pa., Aug. 25, 1858. GENTLEMEN, - After suffering for more than thirty years with Dyspepsia, and trying many remedies recommended for that disease without any good result, 1 was induced, by Dr. F. H. White of Mansfield, to give the Oxygenated Bitters a trial: I took two bottles, which gave me so much relief that I purchased two more, which have nearly or quite effected a cure. I am now nearly seventy-five years of age, and for three months past have felt no inconvenience from my foed. I take great pleasure in recommending the Bitters to all afflicted with Dyspepsia and its concomitant diseases. A. HEBARD.

From Dr. White. MANSFIELD, Tioga Co., Pa., Aug. 26, 1858. I have used the Oxygenated Bitters in my practice with decided success in debility and general prostration, &c., and confidently recommend them in general debility, and diseases of the digestive organs. F. H. WHITE, M. D. ____

THE AMALGAMATION OF LANGUAGES .- There is a growing tendency in this age to appropriate the most expressive words of other languages, and afer a while to incorporate them into our own; thus the word Cephalic, which is from the Greek, signifying "for the head," is now becoming popularized in connection with Mr. Spalding's great Headache remedy, but it will soon be used in a more general way, and the word Cephalic will become as common as Electrotype and many others whose distinction as foreign words has been worn away by common usage until they seem "native and to the

CPHEADACHE is the favorite sign by which nature makes known any deviation whatever from the natural state of the brain, and viewed in this light it may be looked on as a safeguard intended to give notice of disease which might otherwise escape attention, till too late to be remedied; and lits indications should never be neglected. Headaches may be classified under two names, viz: Symptomatic and Idiopathic. Symptomatic Headache is exceedingly common and is the precursor of a great variety of diseases, among which are Apoplexy, Gout, Rheumatism and all febrile diseases. In its nervous form it is sympathetic o' with Headaches; Anæmia and plethora are also affections which frequently occasion headache.-Idiophatic Headache is also very common, being usually distinguished by the name of Nervous Headache, sometimes coming on suddenly in a state of apparently sound health and prostrating at once the mental and physical energies, and in other instances it comes on slowly, heralded by de-

one or both eyes, and sometimes provoking vomiting; under this class may also be named Neuralgia. For the treatment of either class of Headache the Cephalic Pills have been found a sure and safe remedy, relieving the most acute pain in a few minutes, and by its subtle power eradicating the diseases of which Headache is the unerring index.

Constipation or Costiveness. No one of the "many ills flesh is heir to" is so prevalent, so little understood, and so much neglected as Costiveness. Often originating in carelessness, or sedentary habits; it is regarded as a slight disorder of too little consequence to canit anxiety, while in reality it is the precursor and made use of the Oxygenated Bitters some seven or companion of many of the most fatal and dangereight years since.
