abandoned the property in the year 1839 or 1840 cant state the time exactly he lived some time after he left the place, Prichard came there with Miller and his daughter. They all moved there together. I think that Mr Prichard had not much means at that time, but he was always hearty and strong and able to work. Prichard has always been a poor man and laboured for his livelihood. I know that when Prichard came to the place there had been a difficulty between him and his Landlord Mr McClellan I was at the sale and the Landlord sold only a part of Prichards property as I know that Prichard bought some goods farming utensils to the place at Calmsville. what I mean by saying that there had been a difficulty is that Prichard had been served with a distraint. Mr Prichard was a resolute and industrious man. My object in having the Conversation with Sarah Wright was for the purpose of drawing her out, I did it of my own accord having heard some of the Neighbors say that the property did not belong to Prichard and I wanted to satisfy myself about it, Property has enhanced in value in that Neighborhood from fifty to an hundred dollars per acre, the property mentioned in the proceedings is now worth six or Eight Hundred dollars in the year 1848 it might have been worth half of its present value, and the basis of this opinion is the enhanced value of property at this time. I know that Mrs Wright resided on the place and attended to the House and that she studied Mr Prichards Interest. I have seen her hoeing hemp and have seen her at a distance leading the horse when Prichard was ploughing. I cannot say that I have frequently seen her performing services about the place she has attended to household affairs for Prichard and was very useful to him. I do not know that Mrs Wright lived at the House when Mr Prichards family was there. The building on the property when Prichard first went there was a small log house there was also a building something like a hog pen worth about five dollars.

John Ruff a Witness of Lawful age produced sworn and examined on the part and behalf of the Complainant deposes and says as follows. I know George M Prichard have known him fifteen or sixteen years resided at Calmsville on the property mentioned in these proceedings. Prichard was sometimes away from the place working. I have seen Prichard put up an addition to the House, a shed roof which made an addition of two rooms. Miller and Prichard came to this property together. I do not know the time of their coming Prichard rented and some other 99 leases of Lands in Calmsville I saw the lease for the property occupied by Prichard delivered to him and I saw him pay for it. I know Mrs Wright. I know that she had her home at Prichards. I have seen her working at the place I know that Prichard had his home at this place and has been cultivating the place since he has been there, he has been absent last Winter and Summer at different places where he had work,

upon Cross Examination by the Defendants the Witness says that he has frequently seen Mrs Wright making hay and loading the horse and doing other Work on the place, when she was not working out she seemed to work the place, I know that Prichard lived out at several places that I cannot say at what time it was.

Commission adjourned and met again by consent of parties on Monday the 7th day of January in the same year at the same hour and place, No Witnesses being in attendance the Commission was further adjourned and met again by consent of parties on Wednesday the 9th day of January in the year at the same hour and place,

Mrs Clara Freleneyer a Witness of Lawful age produced sworn and examined on the part and behalf of the Complainant deposes and says as follows. I know the parties to this suit, I have known Prichard and Mrs Wright for more than 16 years, when I first became acquainted with them Mrs Wright is now dead She died at Calmsville at the place where Mr Prichard now resides that I remember when she died during the period before mentioned of my acquaintance with Prichard his home was at the place where he now resides I frequently went to see Prichard and Mrs Wright, Prichard occasionally moved away from home when he had work elsewhere but always had the place where he now resides as his home, About 14 years ago Mrs Wright lived with me for a year when I was first married and used to House Keeping, And she also about nine years ago lived for about a year with some one else, and with these exceptions she always resided home to Mr Prichards place where she had her furniture in her own room and Mr Prichard had his furniture in his own room. I was very intimately acquainted with Mrs Wright, so much so that she made me her confident, I kept her money for her, a great deal. And she used to have it for her spending money and she called on me as she wanted it from time to time. Mrs Wright died very suddenly, I often had conversations with her in her life time regarding the place where Mr Prichard now resides. She said that Mr Prichard owned the place, that he had paid every dollar of his own for it, that she always had a home there for her life time and that she claimed nothing else. She frequently said that if it had not been for Mr Prichard that she and her father would not have had a home. Mrs Wright never had a cent except what she earned by living out. The first money that she ever had was what she earned by living with me, She lived with me as a nurse. I paid her three dollars per month for her services which I made up with other things to amount to four dollars a month. I think Mrs Wright never lived any where regularly except at the places before stated and the other places reported to by me where Mrs Wright was lived after she left me was at Mr Trustys.

When Mrs Wright was at home she took in
