when and where they took place and what was said by her about it.

Answer

I had I only had one, It took place after Mr Robert Chatterton came from New York. She went to New York in May 1860. It took place in Mrs Chatterton's own house. She then lived in Jericho. She told me that they were going to move away. She said that she was very sorry that they ever come there. I told her that she would get her furniture all scratched and bruised up by moving. She said that she had not any that the furniture all belonged to John Chatterton her brother in law. She then asked me if I had ever seen her best furniture I told her I had not. She told me that it was over at Mr Lees. She then told me she would show me a peice with which the chairs were covered. (The witness here said that she could show a peice of stuff and produced a peice a part of which is hereto appended

Third Interrogatory

Had you or not any conversation with Mrs Chatterton as to whom the farm belonged which is now the subject of this suit

If yea State when and where it took place and what was said

Answer

Yes Sir. She sent for me at the house at the time when a dispute took place between a colored boy of John Chatterton and Robert Chattertons son in the year eighteen hundred and sixty.

The conversation took place in her house, that is in Mrs Chatterton house.
