

When First To London Town I came

- 1 When first to London town I came
I being a stranger, I know not one
I took my lodgings all at one inn
And for full five months I did remain
And for full five months I did remain
- 2 This land lady she had a daughter, Jane
She was a beauty, I do declare
but a love her quarters I dare not go
I being a stranger, might fall in danger
by doing so by doing so
- 3 The more I kissed this girl, she being young
the more I kissed her, & her eyes did gladden
And she peared to me like, the rising sun
And she peared to me like the rising sun
- 4 I sowed my seed in garden's ground
but give it back it grows a weed, but to stop to reap it
I dare not stay, I being a stranger might fall in
danger, I run away & I run away
- 5 Now when this land lady it was born it
had no farther to farther it on
I will take it and keep it, call it my own
And it will reap the seed that I have sown
it will reap the seed that I have sown

Sooner Observations February 21st 1746
