Mount Desert Island in 1911

the same manner with the same  
high level of the water. The  
P. C. at the same time the same  
water at the same level of the ground  
and the same level of the water. The  
at the same level of the water. The  
it (under the water) and the same  
water level is the same level of the  
P. C. and the same level of the  
at the same level of the water. The  
at the same level of the water. The  
at the same level of the water. The

Long Bay, N. S. W. River S. side  
commenced to be a landing place.

the day commenced with a light  
breeze in from the Westward strong in  
the wind and light the day fast later  
of the day the at 8 o'clock it commenced  
to rain and it rained all night the  
night is a very disagreeable night lasting  
morning all night - writing up the  
Box at Humber to East Post

[illegible]

this day commenced with a morning  
breeze from the Westward and soon getting  
the vessel out at 10 A.M. it came to anchor  
off the Ledge in three cables of water  
gave the Boat a strong chain hawse  
the rigging out since and let the sails  
down. this day I shall make 12 hours log

employed to day taking out ballast and  
taking up the lower tank and getting  
the Barke ready to stow, worked to day  
about 11 hours. sent a letter to day to H.B.

this has commenced quite some time  
employed to the clearing up of the  
new the vegetation now left. This covering  
the strata some are hard and some are  
to be had Dead (which have plank about  
three inches thick and from 5 to 15 wide  
and from 5 to 6 ft. long
