

Left Dr. in school at 10

Longitude 36434

these haven't four hours come in need of a fresh breeze from the northward with frequent showers of rain at night. At starting S.E. all hands on deck employed in rigging on the starboard rigging, at 5 P.M. hauled up the leeboard on starboard and latter part very squally at 12 ^{midnight} M. late squall, at 4 A.M. took in the jib, latter part much like the middle part.

these winds, four hours commenced with a moderate gale from the N.E. and under close reefed fore & double reefed main & courses striking S.W. at 11 P.M. commenced to moderate & little at 12.11 turns the ship out of the topside and hoisted the M.S. sail, heads hoisted & during the latter part of the wind, latter part equally with rain, & in sail in sight commenced a little to decrease the fore chance, & at 11 P.M. Long West -

Shewda December 1861/62

these two or three hours commenced with fresh gale of wind
from about S. E. Ship under double reefed topsails
course a jib at 10. At double reefed and worked the
jib. Heading to the Eastward, at 1.20 the ship got
down the wind aback. middle and latter part equally
no observation to day. Latitude 34. N. Long 22. W.

These went soon became covered with a fresh
snow from the S.E. & heading about S.W. or
S.W. & passed the gun boat making a part
drop for the portland part at 4.40. At 4.45 a large
load of the ice bow & backed sign and under way
shore side, which caused some excitement she passed at
about one mile to the west on the opposite coast
at 5.00 dark and light wind at 10 fresh
breeze at 2.45 the sunset the region of the clouds
during the fall was blue a part red as
the gun boat part. Satisfied North.

this day commenced with a fish haul from
the S. E. heading from S. N. E. at 9.20 AM
a small Shark passed close to us but she took no
notice of us, we saw but one man on deck. We
wanted to speak him and send some letters if
there was a chance but he took no notice of
us and later part squally Sea sunset
to day the Captain took much longer Long 42.102.27
