The Senator's rare end or
his end -

have was end before by
a ship master.

I have end till now of the
master being the attorney part,
have before had a case in
court by my father or master.
He was the chief mate of
the ship & he disagreed it was left
to a referee whom the master
& he decided in Osborn's favor -

The time a paper sent
was 12000 estimate of the price
this he did was to violate the
contract that Osborn put in time
by looking after the whaling grounds -

The next thing was to insure
him, because he insured for
for a living statement of 2 -

The next thing was to look
to violate his agreement for 42 mos.
altho this was done before

The next thing in doing it from 40 to
42 mos.

The next thing was to insure
Osborn's bond -
