

July Thursday 7. 1921

07 This day begins and ends with moderate  
breezes from the South West have been  
blackish & not very finished during  
during the night sent 3333 - Long 5000  
Friday 8. have got the oil all in the tanks.

Friday 8. have got the oil all in the tanks.

" This day begins Bends with very light  
air all day this much busy pumping  
water first part slowing down oil  
have run down 104 bbls leaving about  
10 or 12 bbls in the cooler & tank. Bends  
the day heat 83.40 long 50.11 west

Oct 9. This day begins ends with very fine whale  
ing weather breezes from the North  
Schrekrueger & Grampan at 4 PM  
Killed a pig for luck so ends the day  
Heat 33.22 Neong 5027 fuel -

Sunday 15. This day begins with light  
 & E. Breeze Easterly wind at 6.30 raised on  
 sperm whale along ways off

3324 From the ship going into the P.M.  
5725 Hoveed the Streak Boat after  
a long chase the St. Boat went on  
and struck the whale got him along  
side at 10 or 30 got dinner then  
began to cut got the Head off and  
the body all inboard at 7 P.M.  
No ends The day shot 3324 and 5725-

Mon 11 This day begins & ends with very  
light N.East winds took the whale  
junk & case in boards at eight thirty

Only

raised a large whale a long distance from  
the ship only once the whale me rising as  
the wind was so light. all hands busy  
cuttings blubber. 30 ends the day  
Lat 33 50 Long 67. 36 West gita clast

Steamer changed his course and came  
Tues 12<sup>th</sup> Day begins with very light weather  
the watch engaged hailing at sundown  
cooled the watch down having got  
the whole all built out to see a steamer  
early this morning. The water looks good  
for a whale. Ship steering to the west  
Lat 33.57 Long 57.59 Thet

Wed 10 This day begins & ends with calm weather & sea & steamers all hands tired and resting just as we were washing cloths. The St Mate has my sympathy & I am giving him some snuff.

Thurs 14<sup>th</sup>. To day we have had very fine  
clearing weather & we with all sail  
set steering to the south just at right  
see lots of fish in the water. also  
stowed down 45 bbls of Oil after leaving  
about 9000 lbs in the small tank  
Sent 33.24 Long 57.57 West  
over 147

This day begins with light NW wind  
 but at 10 AM wind veer steering off to the NE at East  
 BB. at 230 PM raised a school of sperm  
 over us.
